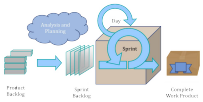
Virtual Certified Scrum Product Owner

Start Date: 3/12/2026

End Date: 3/13/2026



Virtual

Certified Scrum Product Owner Workshop

With this virtual training, you are ready to lead high-performing Agile teams—Scrum Product Owner certified in just 2 days.

Building a product with a new process can be a daunting prospect. Being asked to serve as the team’s Product Owner can be downright intimidating. You’ve got an idea of what Scrum is and have read a few articles or books on the topic, but you really don’t know how to start putting that theory into action. That’s where the Certified Scrum Product Owner program comes in. The CSPO course gives you just enough information to understand how Scrum works, but focuses mainly on functioning as the product owner or customer for a Scrum team. You will learn about activities such as managing stakeholders, ROI, backlog grooming, creating effective stories, acceptance criteria for stories, defining done, and so on.

Why Choose VirtualCSPOTraining?

Virtual training offers unmatched flexibility and accessibility, making it a great option for learners who need to balance professional development with a busy schedule. By choosing virtual training, you gain:

New Half Now and Half Later Payment Option! : Make sure you select the pay later option. We will send an invoice that is half of the total and pay the remainder before the class starts!
